Any additional comments have been forwarded to Washoe 311 and/ or the County Clerk

DCA Findings

1. Consistency with Master Plan. The proposed development code amendment is in substantial compliance with the policies and action programs of the Washoe County Master Plan.

Staff comment: The proposed amendment does not conflict with the policies and action programs of the Master Plan and are compatible with the new Tahoe Area Plan. Per Chapter 2 of the Tahoe Area Plan, redevelopment offers the best path to sustainable development by directing the remaining development capacity in the Region into areas with existing development and infrastructure, promoting economic activity, replacing sub-standard development with more energy-efficient and environmentally friendly structures, and creating more compact walkable and bikeable Town Centers. Allowing single family dwellings, limited to air space condominiums, in Incline Village Commercial - SA 1, a Town Center, provides additional housing options consistent with many goals and policies identified in the Tahoe Area Plan, including the creation of walkable Town Centers.

2. Promotes the Purpose of the Development Code. The proposed development code amendment will not adversely impact the public health, safety or welfare, and will promote the original purposes for the development code as expressed in Article 918, Adoption of Development Code.

Staff comment: The proposed development code amendment is intended to encourage more diverse use types within town centers by allowing the division of multifamily dwellings for individual ownership, i.e. single family dwellings, as air space condominiums, as an additional option for development.

DCA Findings

3. Response to Changed Conditions. The proposed development code amendment responds to changed conditions or further studies that have occurred since the Development Code was adopted by the Board of County Commissioners, and the requested amendment allows for a more desirable utilization of land within the regulatory zones.

Staff comment: The Tahoe Area Plan, adopted in 2021, and the Washoe Tahoe Local Employee Housing Needs and Opportunities study, completed in September 2021, both identify the need to diversify and provide support for varying housing options, specifically in town centers. The subject DCA accomplishes this by affording property owners in Incline Village Commercial- Special Area 1 regulatory zone the option to include single family dwellings, as air space condominiums, in future development projects. In addition, Policy LU7-1 of the Area Plan directs the County to identify barriers to redevelopment within town centers and states that amendments to the Area Plan should be pursued to remove barriers or otherwise facilitate redevelopment in these areas. Limited housing has been developed in Special Area 1 despite the stated goal to create walkable communities where people live, work and play. The amendment will incentivize high density residential redevelopment in the Town Center by increasing opportunities for economically viable projects.

4. No Adverse Effects. The proposed development code amendment will not adversely affect the implementation of the policies and action programs of the Conservation Element or the Population Element of the Washoe County Master Plan.

Staff comment: The amendment will not adversely affect the implementation of the policies and action programs of the Conservation Element or the Population Element of the Washoe County Master Plan. The amendment will not remove multifamily dwellings as a permissible use in Special Area 1 of the IV-C regulatory zone. Rather, it adds single-family dwellings, as condominiums, as an additional housing option. The amendment does not impact the maximum density allowed.
