2.3 Extension of Time to Record Final Map. Section 2.1.2 of the Development Agreement is amended and restated to read as follows:

2.1.2 The deadline for filing the next in the series of final subdivision maps is extended from July 24, 2014 to July 24, 2019, and may be further extended from July 24, 2019 to July 24, 2021 at the discretion of the Director of the Planning and Development Division of the Department of Community Services upon timely written request by Landowner.

**3. NO OTHER CHANGES**

Except as expressly provided herein, the Development Agreement shall remain unchanged and in full force and effect.

**DEVELOPMENT AGREEMENT**

## DEVELOPMENT AGREEMENT

THIS AGREEMENT ("Agreement") is made by and between **MONTREUX DEVELOPMENT GROUP, LLC**, a Nevada limited liability company, (the "Landowner") and the **COUNTY OF WASHOE**, a political subdivision of the State of Nevada, ("County").

### 1. GENERAL.

1.1 Property. Landowner is the owner of real property located in Washoe County ("County"), Nevada known as Assessor's Parcel Numbers 148-010-51, 148-351-05, and 148-222-24 in Washoe County, Nevada (the "Property"), as more particularly described in Exhibit A, attached hereto, which is subject to County's Forest Area Plan.

1.2. Tentative Map. The Property has County a land use designation of Low Density Suburban ("LDS"). LDS allows a density of one single family dwelling per acre. On September 20, 2000 the County issued its Action Order, which is incorporated herein by this reference as Exhibit B, approving a tentative map application for the Property, known as Tentative Subdivision Map Case File No. TM0007-002 (Montreux 2000) (the "Tentative Map"). The development of the Property (the "Project") must be conducted pursuant to the provisions of the Tentative Map and the Washoe County Development Code (the "Code").

1.3 Previous Final Maps. Since the initial approval of the Tentative Map, there have been numerous final maps recorded in a timely manner thereunder, and Landowner and its predecessors have continuously maintained the Tentative Map in good standing. Additional time is requested to allow planned water system infrastructure (well pumphouses and equipment, transmission lines) on adjacent property not within the Tentative Map to be constructed. Said water system infrastructure will allow the use of water rights held by County for Landowner's benefit to be used for the water service commitment of the County for future final map lots of Landowner under the Tentative Map. The parties believe it is in the public interest to enter into this Agreement and provide, among other matters, additional time for construction and dedication to County of water system infrastructure.

The property is located south of the Mount Rose Highway (SR 431) at treeline and is accessed via Bordeaux Drive. The parcels are within portions of Sections 2, 3, and 11, T17N, R19E, MDM, Commission District 2 in the area encompassed by the Galena-Steamboat Citizens Advisory Board, Washoe County, Nevada. (APN: 047-010-02, 047-141-09, 148-010-04, 148-010-06, 148-010-27, 148-010-31, 148-010-40, 148-050-01, 148-050-02, 148-170-01, 148-170-02, 148-170-03, 148-191-03, and 148-191-04)

The conditional approval for the tentative map was based on the following findings:

1. That the design and proposed improvements of the tentative subdivision map, as conditioned, conform to the policies and guidelines of the Forest Area Plan, the Washoe County Comprehensive Plan, and the Washoe County Code;
2. That the tentative subdivision map complies with the density requirements of the Development Code;
3. That the submitted tentative subdivision map, as conditioned by the Planning Commission, ensures compliance with the common open space development requirements of Article 408 of the Development Code;

4. That the areas of the site that are proposed for development are physically suited for the type of development proposed and that areas that are unsuited are left undeveloped or their development will be successfully mitigated;
5. That the subdivision will meet the requirements of Article 702 of the Development Code in that the applicant is required to install community sanitary sewer and the South Truckee Meadows Regional Wastewater Treatment Facility has capacity available to serve this proposed development;
6. That the design of the subdivision and the types of proposed improvements would be unlikely to cause significant public health problems since the development would be served by a community sewer system, would have mandatory refuse collection, would employ appropriate dust control measures, and would utilize drainage collection measures which are acceptable to Washoe County;
7. That the design of the subdivision and the type of improvements would not conflict with the Piney Creek Road easements and, in fact, can enhance use by the public at large for access through, or use of property within, the proposed subdivision;
8. That the final design of the subdivision is required to provide any necessary access to surrounding, adjacent lands and is required to provide appropriate secondary access for emergency vehicles;
9. That any land and improvements required to be dedicated to Washoe County are consistent with the Comprehensive Plan, the adopted Washoe County Parks Master Plan, and the Washoe County Code;
10. That the design of the subdivision, to the extent feasible, provides for future passive or natural heating or cooling opportunities in the subdivision through the use of specified building envelopes to protect adjoining parcels and through the requirements and standards to be employed by the Architectural Control Committee;
11. That the Planning Commission finds that, in accordance with Washoe County Code 110.408.15, the members of the development would be satisfactorily served by the proposed non-residential uses (i.e., golf course, other recreational facilities, open space, private streets, etc.);
12. That the adverse impacts on wildlife access are substantially reduced by ample quality open space and appropriate fencing;
13. That the public trails that are currently under construction or constructed have been required to address county and state concerns for access and maintenance;
14. That the proposed emergency access will not result in adverse effects upon a local family cemetery or a Washoe County parksite;
15. That adequate primary and secondary/emergency access to the project would be assured by the conditions of approval;
16. That the existing development has demonstrated that it is an asset to the community and region;

17. That the conditions of approval and the procedures for establishing compliance with the conditions of approval ensure conformance with NRS 278.349 (Standard Considerations for Subdivisions); and
18. That the Commissioners gave reasoned consideration to the information contained within the staff report and information received during the meeting.

Unless appeals are filed in the time period stipulated in the Washoe County Development Code, the decision by the Planning Commission is final.

Yours truly,

Robert W. Sellman  
Director and Secretary to the Planning Commission

#### STREETS AND TRAFFIC

18. Prior to the approval of a final map which affects the existing access easement as identified on Parcel Map 2718, otherwise known as Piney Creek Road, the following shall be provided to the County Engineer:

- a. A copy of the recorded "Order of Abandonment" which abandons the existing Piney Creek Road. The Abandonment procedure may result in conditions of approval not contained herein.
- b. A copy of a recorded Access Easement and Irrevocable Offer of Dédication being 60 feet in width for the relocated portion of Piney Creek Road. If the Area Plan has been modified to eliminate the collector road designation for Piney Creek Road, a minimum 30 foot wide Access Easement, coincident with the adjoining property line shall be provided in lieu of the 60 foot wide easement. The Irrevocable Offer of Dédication and/or Access Easement shall extend from the existing terminus of Piney Creek Road, southward to the southern project boundary, matching the location of the existing Piney Creek Road easement or as may be relocated on the property to the south. The alignment of the relocated easement shall meet County standards. The existing properties adjacent to Piney Creek Road and Montreux shall be provided access easements to Piney Creek Road.

c. An improved access road being a minimum of 20 feet in width with roadside ditches where necessary, and with culvert crossings. The roadway shall be designed to support emergency access vehicles. Native on-site materials may be used provided a geotechnical analysis is submitted which demonstrates that existing on-site materials are of suitable quality to support the intended loading. Native materials not suitable to support emergency access vehicles shall be removed and replaced with structural fill material (e.g. Type 2 Base). Drainage improvements for the interim access roadway shall be designed to pass the minimum 5 year storm event. With the ultimate improvement of Piney Creek Road, 100 year culvert crossings will be required, therefore downstream drainage improvements should account for this anticipated flow.

Permanent emergency access roads shall extend to county owned and maintained roadways (e.g., Callahan Ranch Road, Piney Creek Road). Emergency Access Easements shall be provided on the affected final map or obtained by separate document from adjacent property owners. Disclosure of the requirement for the perpetual maintenance of on-site and off-site emergency access roads by the Montroux Homeowners Association shall be made to future property owners and prominently noted on at least one sales document signed by a prospective buyer.
